QR Code Link to This Post Bought this camper this year and have been on many adventures with it this summer. Every works perfectly, clean and ready to use. Winterized for the winter. Fits both 6' and 8' beds. ULTRA LITE... only 1300lbs. My old silverado 1500 hauled it perfectly all summer. comes with a built in AC unit, flat screen TV mounted above bed w/ DVD player, shop vac and several other accessories. I just bought a pull behind and want it gone. Priced to.
