INFO:

Straightening your hair can be a hassle especially if you're in a hurry, not to mention it can be damaging to your. That's why we love NEO Choices Ionic Heated Straightening Brush. It allows you to smoothly straighten your hair faster and with less exposure to heat than a flat iron. Designed with a standard hair brush shape, the ionic heated brush is super easy to use. Simply brush through your hair with a regular brush to detangle any knots first, then choose your custom temperature setting before running the heated brush through your hair for a relaxed, straight style.

Ideal for those with naturally wavy hair and those with frizz or bedhead that needs to be tamed, the anti-static ceramic bristles on the Ionic heated Brush heat quickly and evenly, gliding through and over each strand without tugging or breaking. Additionally, the tips of the bristles don't get as hot as the rest of the brush, which helps to prevent burns and allows you to safely style your hair.

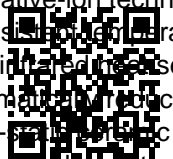

BENEFITS & FEATURES

- Rapid heating time
- Digital LCD display with Auto shut-off
- Anti Scald Nylon-tipped bristles
- Negative-ion technology
- Consistent temperature throughout the brush
- Far infrared heat seals hair cuticles and locks in color and shine
- Dramatically reduces the time and effort required to straighten naturally wavy and curly hair
- Anti-static ceramic bristles detangle and smooth your hair as they heat
- Advanced ionic technology combined with the ceramic bristles and brush plate deliver straight and shiny styles without damaging hair
- Digital heat controls range from 70-450°F and ensure you have the perfect heat setting for your hair type
- Lightweight, compact and convenient for travel
- Ergonomic shape, slip-free thumb-grip and 360-degree tangle-free swivel cord ensure comfort while styling your hair

RECOMMENDED TEMP PER HAIR TYPE: Set the NEO Choice Ionic Heated Brush to your desired temperature based on your hair type.

ï,§ Coarse, Thick and Curly Hair - Long Length -- 370Â° F
ï,§ Coarse, Thick and Curly Hair - Short Length -- 350-370Â° F
ï,§ Normal, Medium Thickness or Wavy Hair - Long Length - 350-370Â° F
ï,§ Normal, Medium Thickness or Wavy Hair - Short Length - 320-350Â° F
ï,§ Fine, Thin, Damaged, or Naturally Straight Hair - Any Length - 250-300Â° F
ï,§ Fragile, Heavily Damaged Hair - Any Length - Below 25

HOW TO USE:

1. Run a brush through your hair making sure there are not knots or tangles .
2. Begin slowly brushing from the roots of your hair to the ends and watch those curls disappear.
3. Making sure that your hair is gliding through by the base of the bristles where the heat is.
4. Repeat as needed. When you've finished using The Ionic Heated Brush, unplug and let cool completely before storing away.

CARING FOR THE NEO CHOICE IONIC HEATED BRUSH: Ensure that the unit is unplugged and completely cool. Using a clean, slightly damp cloth, wipe down the bristles and head of the unit, taking care to remove any product or residue. Make sure that there are no hairs caught in the bristles.

ADDITIONAL INFORMATION

ï,§ The NEO Choice Ionic Heated Brush is not a flat iron. It only emits heat from one plate instead of clamping down on your hair. While this lessens damage and breakage, it means your hair will not get the same pin-straight effect that a really hot flat iron can create. The Ionic Heated Brush is designed to give you more natural-looking straight hair in a matter of minutes

Best for those with wavy hair. If you have naturally curly hair, this is a great first step tool before curling with a wand.

NOTE: This product is equipped with a North American compatible plug that works with standard outlets in the USA, Canada, Mexico, and Japan. If you are located outside of these regions, this product should be paired with a suitable power adapter to operate your device..

Serious buyers only, will not go below \$60. This is worth \$185!!
