QR Code Link to This Post Looking to gain valuable product development experience with a well-established e-commerce startup in Manchester, NH? Looking to put your schooling into practice and gain real-world experience in product management and development?

We are looking for a self-motivated intern to join our product development team. This position requires strong attention to detail and effective communication skills.

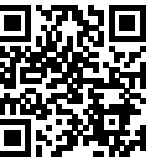

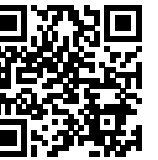

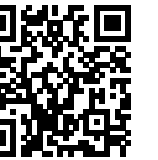

Full disclosure: Due to the startup stage of the company, this is an unpaid internship. In return for your assistance, you will gain valuable experience in the startup environment (great for your resume), a reference letter at the end of the position, experience using cutting-edge e-commerce product development skills. You will also get free samples of our products. At the end of your internship, you'll have a chance to be at the top of our list to be hired!

Responsibilities:

- Grow company revenue by researching, developing and launching new products.
- Coordinate product development with global vendors.
- Advise vendors on product details via product data sheets and prototype sampling.
- Involved deeply in all details during the life cycle of product, including; testing, packaging design, marketing, warranty and sales strategies.
- Monitor milestones and ship date objectives for timely delivery to market.
- Inspect product and packaging samples for proper execution.

Interested?

Please respond back to this ad with name & contact details, resume, portfolio or links to prior work, one paragraph description of yourself and why you are interested in the position, current location and availability.
