QR Code Link to This Post I would like to create a couple of websites and need someone who knows about website design. We can discuss how to go about getting the business model started, time of completion, and what our proceed arrangement will be once we draw something up. This may be a contractor (as needed) position or a partnership. It's a good model and this would be good for someone in school or someone looking for new innovation and ambition. I am in my 20's and welcome both male and female.
