North Carolina Location https://www.genclassifieds.com/x-760968-z

QR Code Link to This Post We have a concrete slab that is being lifted by a tree root but there is no tree close by. There are many different types of trees from far away but we don't know which tree it is going to. We want to cut the root at the source to stop it from lifting concrete but can not find it. Can you?
