QR Code Link to This Post His motto should be a 1/3 of the price for a 1/3 of the work!

Nothing honest or trustworthy about this mechanic. Not only did he not complete a job he was PAID to do two months ago, he also broke my radiator causing additional damage to my car.

This guy has excuses like you wouldn't believe and with all the daily lies and excuses and lack of accountability, it's doubtful he could complete ANY job in a timely manner with any level of efficiency.

Heed my warning and keep your hard earned money away from this
