QR Code Link to This Post Do you have a diesel engine that needs a performance upgrade, repaired or diagnosed? Give us a call! Our Diesel Mechanic has over 16 years of experience from direct injection engines to computer controlled engines. He can work on anything from cars, trucks, boat to semi and heavy farm equipment, even Japaneses diesel engines!

We are mobile and come to you, that way you save on outrageous shop rates and you don't have to leave your vehicle for days to weeks on end. You are able to watch and ask questions the whole time so you understand the work being done. Our mechanic takes the time to show you and explain to you whats going on instead of just guessing or fixing things that don't need to be fixed.

We warranty all of our work and use OEM parts.

Check out our website and give us a call, text or email for any questions.
