QR Code Link to This Post On 11-6-2017 I had a heart attack and have been out of work since. I had my follow up appt with the cardiologist on 11-28-2017 and he still has not released me to return to work. Rent is now due and with the help of family and friends and making tamales to sell I've managed to come up with \$640 so far but am still short \$220 can God please touch someone's heart to help me please. I have a 5 yr old grandson who I've raised since birth and fear of being evicted. I have all paper work to confirm everything you are reading here is true. Every little bit helps. Thank you for taking the time to read my post.....
