QR Code Link to This Post Hello,

I am an electronics engineer by trade and have been living in a tiny home for 2 years now, complete with solar power.

I have helped others install and setup their solar panels, batteries, and charge controller.

I do not sell solar systems, but can guide you in your online orders.

2 panels system setup and install \$150
4 panel system setup and install \$250
6 panel system setup and install \$350

Can't beat the price! :o)

Thanks for.

Solar panel install and setup
