QR Code Link to This Post If you are a serious minded person who is aware that there is a larger picture of consciousness operating all around us, and you would like to participate in some phenomenal pioneering discovery, please consider this proposal. I have been quite vigorously involved in bringing the unseen energies of consciousness into the range of conscious observation and examination for just over 20 years now. I am getting ready to put together a serial podcast to present this work.... I would like to have some new case studies and people to be part of this process.. This endeavor has proven to be quite an extreme uphill climb on many levels when it comes to the public's reaction.... I am not allowing myself to be stuck on that any longer !!! ... If you find yourself intrigued and you consider yourself a fairly clear minded person, please do contact me.... I would be quite happy to discuss this with you.

You are welcome to email/text me 24/7.. or call between 10am til 10pm 7days

Thank you Brian.
