QR Code Link to This Post Residential Lock and Key Services

Lock & Key Service offers a wide variety residential lock, key, and security related services. With 24 hour emergency service, you'll never have to worry about being locked out all night.

Our residential services go far beyond helping people locked out of their homes. If you need a lock or deadbolt installed or repaired, we've got you covered.

We also offer high security locks and keys, making your home's entry points even more secure. For those who have a key or two that have either been misplaced or ended up in the wrong hands, we offer lock re-keying.

We even provide door viewers (peek holes), for residential use.

Our master key systems are perfect for those who have multiple locks, but don't want to keep track of extra keys or clutter their key chain.
