QR Code Link to This Post We are rehoming our one year old pure bred cocker spaniel, Bentley. He is a sweet guy with a minor disability, he only has three legs, but this doesn't stop him! You would never even know he only has 3 legs by the way he acts. He is up to date on shots until May of 2018 and is neutered. He has a seresto flea collar that is good until march. He is potty trained, and absolutely loves to play fetch and his frisbee. I would prefer him to go to a home without small children, as he does have mild food aggression. Bentley will come with all of his things including crate and leftover food. We are asking a rehoming fee for him. Please email me with any questions.

**** insincere responses will not be replied too***

Thank
