QR Code Link to This Post Serving Milwaukee and Waukesha for over 25 years. We do all types of concrete work. We do removal of old and haul away. Replace new. Or... we can do just removal concrete/ asphalt. My name is Ken and you can contact me at . We need to do concrete in doors now. We are looking at garage floors, ware houses, factories...We trench, saw cut, break out concrete, and haul away. Pour new concrete. For those getting any type of concrete work, such as driveways and parking areas, before using any salt or deicers to melt snow or ice in the winter months make sure you seal your fresh new concrete with a commercial concrete sealer to protect the surface before the cold weather comes in! Concrete is air entrained when used outdoors for added curing strength, but, that means your Concrete is also porous. That's why it needs a good sealer on it when new, otherwise ice can penetrate into the surface and cause the surface to (Spauld off) or chip on the surface. Concrete actually gets stronger over a long period of.
