QR Code Link to This Post I'm looking for a couple of guitarists to do some covers.

I'd like to start by saying I haven't sang professionally. In fact I'm pretty much a closet singer. I'd like to get over my stage fright and start getting more comfortable with my voice. This is just a side project for fun. I love music and I really want to do this. Hopefully it works out lol.

Songs I'd. Like to cover.

If it means a lot to you- a day to remember

What this means to mean- I see starts

I am a stone - demon hunter

Pieces- sum 41

Etc. I got a bunch of them but I'm lazy and for want to write them .
Anyway I'm 29 and a guy. So let's talk and try something out.
