QR Code Link to This Post I have a cat that I adopted a from a family friend a few months ago. Unfortunately I got a new job where I'll be traveling frequently so she needs a new home.

She's great with people and other pets. She is the definition of a lap cat, however She by no means smothers you. She will melt your heart crawling up on your chest to get pets and fall asleep lol

2.5 year old female tabby cat
Up to date on shots
Spayed
She's quiet and really low maintenance.

Small rehoming fee of \$20. Comes with litter box, carrier/kennel, toys and small supply of food so you can switch her over without upsetting her
