QR Code Link to This Post Small black and white dog . Had on blue collar and black harness. From eye witness accounts he was picked up by a brother and sister in forest hill park on November 9th (the day he escaped from our back yard. They asked several people about the dog and said they were going to "turn him in" to animal control or spca and post on Craigslist. They did none of that, so we figured they decided to keep him because he is so friendly and cute. Please return Hobbs!
