QR Code Link to This Post Hi! We're Seagulls, a mid-tempo org-core/gruff punk rock band: <https://seagullsatl.bandcamp.com>

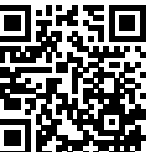

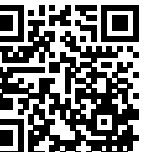

We're in need of a lead guitarist as ours recently moved out of state. An ear for simple melodic parts is crucial; being a shredder is not.

Our goals moving forward are to finish up the full length album we've started writing and knock out some limited touring (mostly weekend warrior FL/AL/SC dates with 7-10 day stretches as necessary to support album releases).

If interested, please peep the two tracks at the above link to get an idea of the style of lead parts we're going for. Holler at us by emailing (info AT seagullsatl DOT com) and we'll set up a try-out and jam on those two tracks at our practice spot in Gresham Park on the weekend.

Bonus points for having solid gear!

Let's do this.
