QR Code Link to This Post We are a domestic manufacturer of pre-engineered steel buildings with over 40 years in the business. We are looking for a general building contractor in the area (Big plus if you can do surrounding cities as well) . If you have experience with steel buildings we would love to talk to you. Need to be able to pull permits. If you don't have any experience putting up steel buildings that's okay, we would be happy to talk to you regardless. No sales pitch, just need to answer a few questions to ensure you're able to do the quality of work were looking for. Call Willie at
