QR Code Link to This Post Are you seeking affordable and durable applications to satisfy your company's needs? Do you have a task that needs Microsoft expertise? I can help.

I am a skilled professional proficient at producing and building Microsoft Excel applications that meet the needs of my customers. Past projects have focused on automated reporting, data mining, code refining, and macro writing. I specialize in custom report creation/automation, data manipulation, and macro generation/VBA programming.

I offer competitive rates and will gladly provide an estimate for all projects. If my services can be of benefit to you or your business, please email me a scope of work for evaluation.

I have many satisfied customers that have been very pleased with the quality of my work.
Happy to talk through your!
