WHAT DOCTORS HAVE TO SAY ABOUT KIDNEY DONATION

Just think people have no problem having only one kidney, so we have to ask, why did Hashem (G-d) give us two kidneys? Perhaps it is so you would have an extra one to donate and save a life!

- Dr. Stuart Greenstein, Kidney Transplant Surgeon, Montefiore Medical Center, Bronx, NY

"We are born with approximately 4-5 times the kidney function that we need, to be healthy and stay off of dialysis- to not have kidney failure. So by donating one of your kidneys, you are still left with with 2-3 times the amount of kidney function that you need to be healthy and lead a normal life"

- Dr. Joseph Del Pizzo. Assistant Professor of Urology, Director, Laproscopic Surgery, New York - Presbyterian Hospital - Weill Corneil Medical Center, New York, NY.

"Kidney donation is a relatively safe operation, and many donors will never feel the loss of their second kidney. So giving up a kidney causes no disadvantage to your long-term health. In fact, studies have shown, that kidney donors actually live longer than the general population - because donors come from a pool of people in good health"

- Dr. Michael Edye, former Adjunct Associate Professor of surgery, Mt. Sinai Medical Center, New York, NY

"Very Safe Operation"

- Dr. Jay Levine, General Surgeon, St., Mary's Health Care, West Michigan, MI

QUOTES FROM PEOPLE WHO ALREADY DONATED A KIDNEY:

"People always ask me why I donated my kidney - and I always respond with, why wouldn't I donate a kidney? I had 41 surgeries in my life and the kidney donation was the easiest surgery of them all" - John Feal, Long Island, NY - 9/11 responder, who donated a kidney to a stranger. (I know this wonderful man. He donated a kidney, despite his foot was crushed while helping to remove debris from the twin towers wreckage. And yet, after that he went on and donated a kidney, and is doing great! He has an organization to help other 9/11 First Responders: <http://www.fealgoodfoundation.com>.)

"I have gained so much more then I gave through donating a kidney" -- Marisa Hester, Alabama

If only people knew how amazing it will make you feel. I mean, i know I helped save a life, but it has changed me. Just an unexplainable experience. Has brought me closer to G-d. Just simply amazing.

"I would love to do more to help with kidney donation! I actually had a level of depression set in after the donation because I wish I could do it again! It was the BEST day of my life! It is hard to explain to someone who hasn't been through the experience just how awesome the feeling is. My brother and I are celebrating 4 years next week of sharing organs. Not a better feeling in the world..... "
