

2004 Ford Ranger 4x4 (3500 USD)

Location **Mississippi**
<https://www.genclassifieds.com/x-765289-z>

QR Code Link to This Post Truck runs and drives absolutely wonderful. 4x4 works great, engine runs strong and transmission shifts smooth.

Truck has been very well maintained. Oil changes every 3,000 miles and tires rotated and balanced every 3rd oil change.

Within the past 5,000 miles we've had the upper and lower ball joints replaced, new struts and shocks, new 31.5" mud terrains (\$1,200), front rotors, front and rear break pads, new AC compressor and condenser, and new windshield.

At 221k miles we've had the entire engine rebuilt. At 260k miles we've had the transmission and transfer case rebuilt.

Very solid truck with absolutely no issues. Very well cared for inside and out. If interested please call me at . I do not receive the texts! I'm 69 years old and can't do all of that fancy stuff. Calls only please! Thank!
