1993 Dodge W250 extended cab long bed, 4x4. Cummins diesel, 4 speed auto trans, Dana king pin 60, Dana 70 rear, np205 transfer case. Very little rust, doors could be in better shape. Runs and drives, needs a speedo gear assembly (screws into the transfer case) has a broken part keeping the speedo from working and from shifting into overdrive. Has the typical stopped odometer like a lot of them have. \$4250 NO TRADES, NO PHONE OR TEXT OFFERS

If you feel like making an offer, read the post again. I'm an hour southeast of Kansas City.

This truck was last tagged in 2014. It has small issues aside from the trans not shifting into overdrive. Needs a headlight switch, wipers don't work, and the fuel heater plate above the fuel filter is dripping diesel fuel. You can get a heater delete for \$20-30. Again, its an old truck with old truck issues. It obviously needs a little attention. Be sensible, if you live across the country expect to trailer it home for your and everyone else's
