QR Code Link to This Post 2014 Honda CBR250R, 9xxx miles

Helmet (w/Bluetooth), race leathers, gloves, boots, jack stands and fuel tank full of 100 octane race fuel

Very nice Christmas gift for someone wanting to get into racing!

Bike started out new in Sonoma county, CA. I bought this to deliver MMJ on the twisty roads on the coast.

Came to MO in '15 and made it a track bike.

Low-side at Blackhawk in turn one at start. Low speed and only scuffed fairing.

This bike is in excellent condition and ready to race!

Reconditioned over winter of '16. Upgrades include-

Suspension- Pirelli tires, front and rear shocks, clip-ons, rearsets

Body- Hotbodies race fairings (rattlecan red), red windscreen, stomp grip pads, fuel tank (has small dent)

Engine- Motul oil (changed every other track day), K&N air filter, new battery, new spark plug, Bazazz fuel controller and auto mapper, Tyga full exhaust with maggot muffler

Brakes- Galfer SS front brake line and pads

Safety- toe guards, lever guards, rear spools

This bike has NO issues that you need to fix- ready to go!
