QR Code Link to This Post I am looking for a place for my bees in the spring and summer. I currently rent and am unable to keep bees at my home. This past summer my boyfriend and I kept bees on a local rooftop but the heat and lack of access have prompted us to move our hive.

We are willing to share the honey that is produced for a discounted rate (bees are expensive to keep) and in turn you can reap the benefits of pollinators in your garden! We are looking for someone in Southeast Boise with a large yard or property that will allow us to access the hive as needed (weekly hive inspections,.)
