QR Code Link to This Post Get the kids out in the backyard and in the sunshine building and planting these holidays with their favourite Trolls.

Every year there is something that children everywhere go nuts over. Without a doubt this year it has been the much anticipated release of Trolls on the big screen. Miss 8 saw it with her school year and has named it the "best movie ever" - the rest of us will have to wait till the DVD comes out as we are going away this Sunday. As with all hit movies the merchandise is ready to be snapped up, and Trolls has some fantastic products out now right in time for Christmas.

With the warm weather here the Trolls Garden Playset will be a winner with kids of all ages. Recommended for ages 4 and over this miniature indoor garden comes with a mini Poppy figure, a planting pot, its own pod hanger, a hanging pod house plus a drainage plate. All your little gardener has to do is add their own soil and plants and love it so it grows!

New, still in the box

Also the pillow still with
