STOP RUST!!!!

GET READY FOR WINTER AND preserve your car truck or SUV from the harsh conditions caused by the salt rain in the snow rust is the number one killer of cars the fluid film is a proven stopper of this rust \$200 for the initial spray I recommend getting it touched up every 6 months to a year touch-ups usually run about \$75 fluid film is a lanolin based product that sticks to your undercarriage like an oil we spray the complete underside of your vehicle in side of your rocker panels up inside of the bed sides of your pickup and wherever else you would like to see sprayed

My name is Andrew Mizner and I am the owner of Andrew Mizner mobile automotive repair I do my fluid film undercoating out of a garage called broadray batteries and auto repair at 909 Broadway in South
