QR Code Link to This Post I want to remind you that we are running a 15% discount on all new SLA orders through the end of January - and if you need high quality parts fast, we're here to help..

In addition to our Stereolithography process, we have a number of Additive Manufacturing and Short-Run Production services for rapidly producing high quality prototypes, urethane castings, and production parts in a variety of plastics, metals, and finishes.

We are en engineers or product inventors best friend,

We have 3 printers in house, including SLA, FDM, PLA, Casting and DLMS.

We price your project to win your trust and business

CNC Machining, Silicone Molding, Metal Pressing&Bending, 3D printing(SLA&SLS), Rapid Tooling ect.

Rapid prototyping benefits include:

Decreased development time.

Decreased costly mistakes.

Minimizing costly engineering changes.

Extending product lifetime by adding necessary features and eliminating redundant features early in the.
