This "therapeutic group/class" specifically designed for men with life experience, where they once felt they were getting somewhere in their lives, but now experience a downfall in their lives. Feeling more and more pushed around in marriage or other personal relationships; in their work as perhaps a skilled professional, as a skilled craftsman, in a trade, in business, small or large, or in some other line of effort, etc.. This occurs often in our competitive society where this competition leads not to a better life for all working together to meet life's joint challenges, but rather to a downfall in almost everyone's circumstances except for the few who have come to dominate over others.

(News flash just now as this gets written, Senator Franken of Minnesota will resign his Senate seat, even with female Senators from his own Party, and a number of apparently low of character fellow Democratic male Senators now joining the call! Making this men only group/class the more important for us to get together and conduct!)

Today, all around you, you perhaps see yourself as increasingly dominated by women, especially, too often accompanied by men, weaker of character than yourself perhaps, racing to support the woman's side, in particular.

We've seen this increasing even just in the last year or two, even the last month or two, even in the last week or two, as reported with increasing rapidness through increasingly graphic media reports that do little more than making the very few men, all obscenely wealthy as billionaire moguls, who now have come to control almost all the media outlets today, in this country, and increasingly elsewhere in much of the westernized world, even in places, in the farther east, like Australia, where, in this case the mogul Mr. Rupert Murdoch, (Fox News, The Wall Street Journal, The Times of London, etc..) originally comes from, as but one of the commanding six such moguls

now, essentially running the show, and also essentially largely in concert, it would seem, controlling what you learn, that they feel fit for you to learn in a manner that will further enhance their obscenely wealth and power, and in this manner, over a great lot of our country, in which it is actually also (as they,) have

place in the universe, in which we are presented

increasingly now, women, the weaker, according to reports of violence, sexual intercourse, and in the past, perhaps years before, but not perhaps when, feel

victimized", as it increases it actually seems to increase their feelings of power over men, as now "liberated women", as the media report it, as it increasingly advances

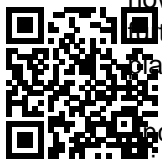

these moguls wealth and thereby power, as these reports involve sex sells these moguls advertiser products

SEX does sell, let us make certain we understand that, and since selling of a defective product, makes the rich richer, and since richer" in our time and society means

having more and more MONEY, which therefore leads to POWER, and since POWER CORRUPTS, and since ABSOLUTE POWER CORRUPTS ABSOLUTELY

would seem, at the very least, those at the top of this "food chain" of ABSOLUTE POWER AND DOMINION OVER THE REST OF US, it ultimately has come to

destroying us all both the poor, the weak, the meek, and the supposedly "strong" and powerful as well.

In practical fact, this now has continued, with increasing rapidness, to tear apart the social fabric of our Nation as a People, and even its prior standing in the World, in its more helping-of-others roles and capacities.

This men's group/class comes designed, in a private, confidential, mutually supportive setting, jointly with other men, to learn both about ourselves, as individuals and as a group in support of one another, as human beings, to non-violently fight back against this increasingly violent trend in all our lives, and ever increasingly in our society as well.

The person leading the group/class represents an exceptionally knowledgeable and insightful, life experienced man himself, trained in part even in medicine, as well as within that sphere, mental health, but also knowledgeable and experienced in many other areas as well, where he can help others, including men, with their life struggles as they presently experience them. While as "teacher"/group leader/group facilitator, etc., he does have the ability to help you and other men who do get accepted into and join this new group/class.

He, this "teacher"/leader of this developing "group/class", remains just a phone call away for you, you a man whom in his own mind with still has the remaining energy to make the effort to at least start the very hard work, with the other members of the group, that will, we shall hope, over time, make their lives as a men finally supported by other men, in common purpose, seem more worthwhile in living than perhaps it ever before has.

This WILL take work on your part, as well as on the part of the rest of the men who join this group/class, including, as it will of course, the leader himself, as leader; and in his leadership, also a group/class participant ... as a MAN(!) ... like YOU(!).

Make the effort to call as soon as you can. If you do not reach me, the "Leader", when you call, but the call ends up on answering, then either call back, or in the alternative leave a name, even a name not actually your own, to hide for your own sense of security your identity, and a number at which I can call you back, as I may already have on the line, another caller with whom I then speak.

If I do not return your call, if you leave a message with sufficient information so that I can call you back and I do not do so, then many things may have happened, including the message got garbled, etc.. Then do attempt to call me back as soon as your able.

The worst for you will occur if I personally have come to my death and hence never answer your call.

Then, if by chance this has happened, do not grieve for me, but for yourself as a man who has sought my help in what I seem to like best in doing, helping other human beings, of any age, gender or circumstance, achieving jointly, a better life by human standards, for all of us, on this Planet Earth together, had I still existed in joining you in that living, learning, sharing and experiencing effort, together ... as human beings.
