QR Code Link to This Post Nice Ensoniq SQ1 Plus. Bought from a pawn shop last year. I've cleaned it thoroughly and I've only played it in church. Needs a new battery installed. I've already purchased the battery. I just haven't had it installed yet. Two of the keys will sustain their note sometimes. It hasn't been an issue for me because I just press that key again and it stops. I read that the contact underneath those keys could need cleaning and that is an easy fix while the battery is being installed. No other issues. I'll include the battery, a new sustain pedal, and a new gig bag. All for only \$150. This is sold for much more on Ebay without the.
