QR Code Link to This Post My roommate left his cat because he doesn't want her anymore. I already have a 3 year old dog and a 6 weeks old puppy to take care of and I do not like cats. I know its getting cold out though and all she has ever known is the indoors. She is grey and very soft but not fluffy. I'm not sure how old she is but I think she might be going into heat soon. please if you're interested message me right away. I want her gone as soon as possible. Will send pics if.
