QR Code Link to This Post My yorkies have beautiful Yorkshire Terrier traits. They have the adorable round baby-doll faces and long black silky hair. They also have short legs, snout and body. They will have had their first shots and have been de-wormed. They will come with a 1 year health guarantee and their registration.

I am a small hobby breeder focused on high quality healthy puppies. Every puppy is hand raised with lots of love and attention and is well socialized with children of all ages. My yorkies are not kenneled and live in a smoke free clean environment. They'll make a perfect family pet and companion... All paperwork attached. They are AKC registered with a year congenital health warranty. Present weights are 1.1lbs 1.3lbs. Estimated fully grown up weights are 3.1lbs to 4.0lbs. Merry Xmas in advance
