QR Code Link to This Post This very nice 2014 Mercedes-Benz GLK350 4MATIC was recently purchased by us, and after our careful inspection, we are proud to offer it to you. It is powered by Mercedes' ultra-reliable 3.5-liter V6, which produces 302 horsepower and 273 lbs-ft of torque. This GLK is nicely equipped with factory options such as heated MB-Tex seats, power glass panoramic sunroof, Navigation, Bluetooth connectivity, power windows, dual-zone automatic climate control, and much more. This 2014 GLK received the prior model year's mid-cycle refresh, which features updated exterior design elements as well as a refreshed interior that is very well appointed.

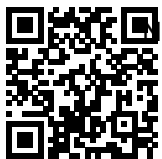

The GLK is a great small luxury SUV for Colorado with Mercedes' renowned 4MATIC all-wheel-drive system, which allows this GLK350 to go anywhere regardless of what the weather can throw at it. The GLK is in a league of its own when it comes to style as well; there is no mistaking it for anything but a Mercedes-Benz. It's also a delight to drive. The smooth ride, quiet cabin, ample torque from the 3.5-liter V6, and stable high-speed handling all add up to making this, in our opinion, the best SUV in its class.

This GLK350 has a clean Carfax report and has just been serviced by our in-house Mercedes-Benz technician. A new-car extended warranty is available at extra cost. Stop in and take a test drive today and you'll see why many automotive reviewers place this GLK on their best-buy list for 2014.

**\*\* We can be reached at 970-377-3333 or on the web at [www.westonautogallery.com](http://www.westonautogallery.com). \*\***
