QR Code Link to This Post I've got a small dealership and repair shop and looking for someone to work on an as needed basis who knows European cars... mainly VW, Audi and some BMWs, Mercedes, Saab, Volvo. Must have experience with replacing timing belts and all the basic repairs... it's ok if you don't know transmissions or major internal engine repair. You make your own hours (anytime between 8am and 6pm) and must have your own basic tools... I have the specialty stuff and scanners. I have 2 lifts and pretty much all the equipment needed. This is basically a trial period until I get busier and if you fit in I'll hire you on a permanent basis. \$15-\$20 based on ability and consistency with the opportunity for more if you work out permanently down the road (up to \$30 an hour or negotiated salary).. Feel free to call or text to let me know what you know and how much you can work. There will be some questions I'll need you to answer over the phone so that I feel confident you have a good understanding of the repairs I will need.
