QR Code Link to This Post Ariens 926LE Snow Blower For Sale. I am second owner. It was originally sold by Butler Power in West Hartford (not a box store) to an older gentleman who injured his back and could not use it so it sat in his basement for two years. I purchased it about 6 years ago and it was just like brand new when I bought it as it had almost never been used. Last fall I had it professionally serviced, please see the attached service slip. I used it three times last winter as I got a used tractor with a blower mid-winter. I just went out, put some fresh gas, started, it fired right up but seems to be running a little rough at low idle with the choke turned all the way off. At full throttle and choke off it is running smooth. I am not very skilled with small engines but think the carburetor may just need an adjustment. See photos, it is very clean and in very good overall condition. All controls and chute adjustments work very well and it has brand new skid shoes from last fall. It has electric start, I have all the manuals and spare sheer pins. I can deliver locally if you do not have a means to pick-it up yourself. Serious inquires.
