I'm an experienced producer with a wide style range (pop, hiphop, R&B, EDM, dancehall, dubstep, etc.). I write custom instrumentals based on your ideas and check in frequently to make sure you get your input every step of the way.

Music is my full time gig, so you know I'll spend the time and energy it takes to get you the best possible results within a reasonable time frame. I can work on a deadline and get it done up to your standards.

Services offered:
- Beatmaking/instrumental music composition and production
- Mixing/Mastering
- Vocal editing/pitch correction
