QR Code Link to This Post Kind of hate to let this one go. Very hard to find. Built in the mid to late 70's, it was Pioneers upper end receiver at the time. A real powerhouse! 125 watts per channel. This one works well. Good reception. All functions work properly. Dial lights all work. Only the function lights need replaced. No humming or scratchy sounds. Stays cool during power on time. NOT interested in trades. Cash only. Don't contact me with low ball offers. Call or text .
