QR Code Link to This Post I have decided to sell my Omega. In 2002, Omega produced a limited number of 007 Seamaster's to commemorate the movie "Die Another Day" 10,007 were made. Pierce Brosnan owns several, I think number 001 and 007. Anyway, they are a beautiful watch. Fully automatic with the dependable Omega 1120 movement. Fully rotational bezel. Luminescent markers and hands. Diver extension in the clasp. And the 007's came with a dial covered in the 007 logo, as well as the clasp. This one is special. I bought it from the original owner. He worked with Mr Brosnan on the movie mentioned. At a book signing in NYC, Pierce presented this very watch to him for his work on the movie. How cool is that! James Bond giving you a 007 watch! I have the document to verify. Price is firm. No trades. Scammers don't waste your time! I am wise to all your texts. No certified or cashiers checks, no PayPal. If you can't do cash in person, don't bother me. Call or text .
