QR Code Link to This Post We rescue cats from high-kill shelters when they are running out of time and then keep them in our home until they can find homes of their own. We take these cats in without ever meeting them, so we never know what we will get! While most of the cats are friendly, sometimes we get 1 or 2 that are extremely shy or semi-feral. We currently have a few of these cats available who need a home where they are not expected to provide a lot of human companionship. They can provide you with rodent control in exchange for a safe place to live! The cats we currently have available are all females, ranging in age from 4 to 7 months old. They have been tested for feline leukemia and FIV, vaccinated, treated for fleas and spayed. There is no adoption fee for these cats--we just ask that you provide them with safe shelter and regular food and water. If you have a barn, vineyard, or other outdoor space that could use a cat or 2 (they do not need to go together but will thrive in a pair or more), please call us at . Thank!
