Looking for a Marketing & Social Media Intern, who is willing to put in the work to own your own company. I don't want to work with anyone that is looking to work for an agency, you must aspire to be the best if we are going to work together. I'm a Branding and Marketing specialist that focuses on Influence relationship marketing and brand development. I'm looking for an intern to teach everything I know to almost like a mentorship in exchange for some help with prospecting and basic marketing tasks like setting up calendars.

I live in Los Angeles but am fine with someone working remote. I'm only looking for one person that I really get along with. If you don't have personality please don't apply. If you don't understand basic business please don't apply.

Responsibilities:

- Prospecting (Online)
- Market Research
- Setting up Calendars
- Basic Marketing tasks
- SEO (Not a big deal if you don't know how)
- You will be working with me closely
