She is just not a good fit for our home. We have 3 kiddos, and she has never hurt any of them. She needs a home with older respectful children, or no children at all. She has had all vet work including all shots, microchip, spay, and front declaw. She comes with her food, bowls, collar, litter box, litter matt, litter, a ton of flea/tic preventive, toys, her bed, litter liners so you don't have to scoop, a cat tree with a little house. We have put well over \$800 into her. We need her to find a home as soon as possible. I can send pictures upon request. Her birthday is March 11th. We will meet somewhere suitable to both for safety. Thank you. Please call/text or email.
