New with box -- dog training obedience system

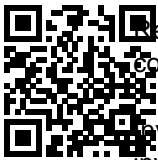

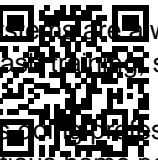

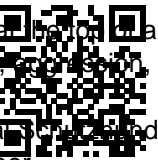

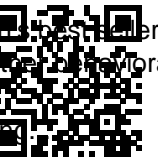

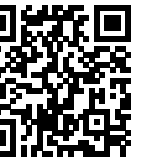

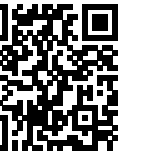

PetSafe Adventure Dog Remote Training Collar with tone and static stimulation

Retails at amazon for \$159.99+tax and at petco for \$189.99+tax.

Here's what I like about these units:

- Very well-built; rugged, to withstand impacts; quality materials feel substantial to the touch.
- Charge transmitter & receiver simultaneously w/included cable splitter;
- Consistent stimulation;
- Level 1 stimulation is almost not noticeable (the way it should be), & each level up gives a noticeable difference.
- Well-known brand... PetSafe has been around for a while... and is sold in many pet stores.

8 levels of stimulation plus two tone (sound) training options;  
 Range up to 800 yards \_\_--\_\_ Waterproof (consider this as water-resistant, just to be safe);  
 Adjustable collar (up to 28"), for small to large dogs...  
 or just attach to your own collar for a custom fit.  
 (optional: expand to 3 dogs w/extra receivers.)

 <p>Remote training collar system always available when I want to get professional dog training. Invaluable for the conscientious home pet owner. I've never needed shock for my dogs, for any dog. Obedient dogs need "vibration mode" only. Please read/watch (youtube it!) some educational material before getting started. If requested, at time of pickup, I will demonstrate and explain how to use in a responsible manner and how to achieve the desired results. As always, all training tools require proper skill by the.</p> <p><b>NewPetSafe Adventure Dogjust 95... retails for 159</b></p> <p><a href="https://www.genclassifieds.com/x-769827-z">https://www.genclassifieds.com/x-769827-z</a></p>	 <p>Remote training collar system always available when I want to get professional dog training.
