QR Code Link to This Post I am a published, professional photographer located in Milton, DE. I am currently looking to expand my portfolio. I am especially interested in expanding my work to more "alternative" models as there is growing demand for this. I am also interested in shooting cosplay models as well. Most of these shoots would be location shoots in and around the Delaware beach area. Shoots would be clothed, implied nudity and tasteful artistic nudes. I am not interested in "hustler style" porn.

I am professional, respectful, and am happy to provide numerous references. Escorts are always welcome on my shoots as long as they stay to the side and don't interfere with the process.

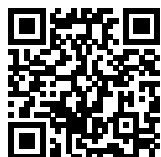

I have a limited amount of paid shoots but am happy to shoot TF (trade for prints) as well. This is an excellent chance to begin, or add to your portfolio.

Please respond with recent, decent quality.
