We offer a 30 DAY WARRANTY ON Phone purchases and repairs.
 HOWES CELL PHONE REPAIR PRICES IN
 Beware when buying phones from individuals on craigslist, even some stores!!!! - Make sure the Apple iCloud is taken off the phone along with the Google Account - if you need to remove the accounts your phone is virtually useless.
 ALWAYS CHECK THE IMEI OF THE PHONE - This specific serial number can be "blacklisted" or "Blocked" on the carrier- This happens when the original owner reports it lost or stolen or still has a balance on the phone. Even if the IMEI checks out as clean, it can go bad months down the line.
 We GUARANTEE all of our IMEIS for the life of the phone!

ALSO make sure the IMEI matches the sticker and the inside of the phone - you can check your phone's IMEI number by typically typing in *#06# - If the phone's price is too good to be true - it was probably purchased stolen - Think of the IMEI number as a VIN number to a car - You never want to buy a sketchy car...there will be issues registering it! With a phone you'll have a problem registering it on your network it will fall in and out of service!!

If you do decide to purchase from an individual - Meet them at our store so we can help you determine if you're buying a working phone and we can perform a FREE DIAGNOSTIC AND A FREE IMEI CHECK!!

Here at SetCell we don't just sell phones, we fix them! We can help remove google locks or clear your phone for activation - we can also unlock devices you want to use on alternative carriers. We carry tempered glass and most every brand of cell phone cases! Also beware of unauthorized stores selling OtterBox or Speck products - We're an authorized dealer to popular brand names such as these - REST ASSURED you wont have a problem with your case warranty!
