QR Code Link to This Post Hello,

I am trying very hard to flag your post in order for you to edit it to have contact information.

I am part of a rescue in Fremont, Catz Angels, and we saw your kitten post on craigslist while skimming the pet section. We want to help in housing your kittens, and seeing if we could take them until they are of correct adoption age, as 3.5 weeks is too early for them to be separated!!!! We would like to try to contact and work with you in getting these kittens some warm homes and caring for them until they are ready.

Please either update your listing with a phone number to reach you, or contact me
