QR Code Link to This Post I have a 16 week old Chihuahua. He is the last one left. Original person's landlord wouldn't let her have him. It's a male, and he looks just like a shepherd but Chihuahua size. He isn't going to get any bigger. He has all his shots, and been wormed. You will get all that info. He is fully housebroken. He loves being with you, and loves car rides. He is just a very sweet little guy. He gets along with other dogs, cats and he loves kids. My grandson is 2 and he follows hi and lets him pet, and chase him. He has a great time doing so many things. There is a rehoming fee to make absolutely sure he goes to a good home. You will fall in love with him. Serious inquiries,.
