QR Code Link to This Post Hi,

I'm looking for a trained Piercer to do body modification on me and my 100 friends. We will pay full price for your work. Not looking to score a deal. Just looking for a skilled, professional and willing piercer! This event may very well lead to full time work at a busy shop! If you know of any piercers please send me a recommendation! I will reach out to them!

I have a shop location that is sterile. I can even provide you with the proper license and insurance. I'm mostly looking for general piercings. Ears, septum, nose, maybe a tongue, belly buttons, and dermal, but if you have experience with implants or eye brow that's a plus!!

Please send an email response with your name and any portfolio you may have.

Thanks,

[Piercer Wanted \(Boston\)](#)
