QR Code Link to This Post My name is Chris Mason. I am an author. I have depression, anxiety disorder, obsessive compulsive disorder, Tourette syndrome, and akathisia. I have had several books published including my autobiography and book of 30 true short stories, including my own, about what it is like living with Tourette syndrome, and another book that will be published soon that includes over 50 true short stories written by people who have a variety of different diseases, disorders, and syndromes. I just wanted to let you know that I am collecting stories for my next book about disorders, diseases, and syndromes, and I would like to invite you to submit your stories. The main reason why I am putting these books together is to raise awareness for these diseases, disorders, and syndromes. Together we can tell the truth about them and help people with them be more understood. Please email any questions you have about this project, to me or you can answer this ad and I will email you my email address and you can email your stories to me. I am looking forward to reading your stories. I am hoping this book makes some money and sells a lot of copies, but I can't guarantee that it will. Like I said before, my main purpose for putting this book together is to raise.
