QR Code Link to This Post I have two Fairbanks Morse Hit and Miss engines I would like to get rid of. Neither are running and both come exactly as pictured. One engine is a 6 horsepower and the other is a 12 horse. The six horse ran a few years ago and still turns free. The 12 horse turned very tight when I got it but is now stuck. I don't think it will take much to get it free. We just haven't messed with it. Now they are just taking up space and I would like to get them out of the way. They are being sold as-is.

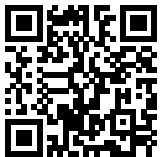

12 horsepower - \$1200
