- **Accelerate your progress by filling in those gaps that take forever to fill on your own.
- **The fastest way to learn your basics or theory will be in the context of music you have listened to all of your life. No one in south Florida is more skilled at helping you exploit YOUR love of songs who have influenced you all of your life. (NEVER allow a lazy instructor discourage you from learning YOUR influences.
- **Your lessons will be appropriately tailored specifically to YOUR needs. I will help you have that clarity of where you are and where you want to go and set up a strategy for the most direct route.
- **All ages 10 and up but please feel free to contact me for advice for younger kids while I will provide free as a fellow parent of 4 girls.
- **I provide all learning materials but feel free to bring any resources of your own.
- **I teach all styles, and I have actually transcribed and edited over a thousand books for recording artists ranging from James Taylor to Dream Theater.
- **Flexible Scheduling. Lessons can be regular or random Either one can be either productive or counterproductive depending on where you are and how you work. An experienced and skilled instructor would know the difference
