QR Code Link to This Post Hello, I'm Adam. I'm a local Kansas City e-commerce professional, and I want to help you get your small business on the internet as painlessly as possible. While still being affordable! \$3,000-\$10,000 to setup a website is just out of the question for most business owners. I can give you a beautiful website for much, much less.

Today everyone uses the internet to decide where to shop, whom to hire, and where to go for the best services in town. Your web presence is everything in business. Let me help you put your best foot forward and win the clients you've worked so hard to earn. I'm a small business owner myself and I know how difficult finding time to deal with the day-to-day stuff, and try to run a web-store in your free time.

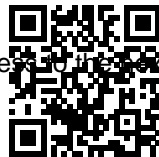

That's why I use the Shopify platform over WooCommerce, or other platforms. You need a customizable and intuitive platform to make things fast and easy. Shopify offers the best customer support, an easy to modify structure, and has a huge community for support. So let me tell you about what I have to offer you, below.

I'll build an easy to run and manage e-commerce website that will be based on the ever powerful and popular platform Shopify with the following features.

Full Responsive Unique Design
 Mobile Friendly Functionality
 Create Unlimited Products
 Analytics
 Newsletter Signup
 Payment Gateway (accept payment online with your Paypal, Authorize.Net, Shopify Payments, Amazon Pay, ect.)
 Easy Shipping with UPS, USPS, FedEx, ect.

Collect the Correct Taxes

Please contact me to discuss your needs and how we can put together a plan to get your business to the next.
